

# 15 RIOTERS ARE KILLED AT ESSEN STRIKE AVERTED

## Efforts To Call a General Strike Results In Clash With Police.

### Rest of Country Reason- ably Quiet, Berlin Dis- patches Indicate.

Essen, Germany, March 23.—Fifteen rioters were killed and forty others wounded in a clash with the security police here.

The attempt to bring on a general strike in this region, has so far failed. An "exceptional status" has been proclaimed for Dortmund, Bochum, Gelsenkirchen and other points in Rhineland Prussia.

The "exceptional status" referred to, presumably is similar to or identical with the "non-military" state of siege which has been put into force by the German authorities in parts of central Germany affected by the communist disorders.

With the exception of the minor outbreak in the American bridgehead region Monday, which was promptly and effectively dealt with by the American military police, conditions have been generally quiet.

Berlin dispatches filed late Monday night indicated some anxiety in governmental circles over the development of possible disturbances in the capital Tuesday an attempt by the extremists to tie up the big industrial and other plants in a general strike being forecast. The police were ordered to be on hand to traffic and all the approaches to the foreign office and other government buildings were barricaded with barbed wire entanglements and guarded by troops.

Last reports from central Germany were that the situation had not materially changed, the principal trouble being sporadic outbreaks at points temporarily held by the rioting bands. The security police had yet failed to control in the round up of rioters in which these police forces were engaged.

## Chicago Is Shaken By a Heavy Explosion, and Crowds Hamper Work of Firemen and Police.

Chicago, March 23.—An explosion which wrecked a warehouse on the southwest side caused ten deaths and injuries to several other persons, according to first reports received by the coroner's office.

City police and firemen said they could see bodies in the ruins of the building. The cause of the catastrophe was not made known by the first reports.

Effects of the explosion were felt blocks away. A large department store at 12th and Halsted streets was the scene of a panic when the concussion shattered plate glass windows and started clerks and shoppers running.

The neighborhood confusion hampered the police and firemen until the fire lines were established.

Of the building where the blast originated there was left only a pile of broken timbers and plaster.

Later two more bodies were taken from the ruins, bringing the known death list to five. Parts of another body also were recovered but the coroner's assistants were uncertain whether this latter discovery actually increased the death list.

#### CONDITIONS IN TEXAS.

Editor, The Advocate:—This morning we are in a deplorable condition again, in what is known as Texas. The down-pour of rain Sunday night raised the North and South Forks of the Licking river and as a result cut us off from the main part of the city entirely. We do hope that the city officers will make speedy headway to give us another outlet. As the south end residents have been fighting for subways at different streets please do consider matters and give us Texas people just one

subway at Webb street. That is all we would expect. The B. and O. company still has planks at Webb street half way across from the north side. With very little trouble the other half could be planked. Why can't we, for the time being, just have a temporary opening at Webb street. This is the second time we have been cut off from the city within three weeks' time. We had just one week's use of the temporary bridge and now we are cut off again entirely from the main part of the city. Have the city officers ever stopped to think what we should do in case of death? Could we right now give a decent burial, being cut off the way we are now? We beg council once more to think of us, as human beings, as well as others, to consider matters for humanity's sake. The welfare of about

800 people in the suburb of Texas is involved.

## Physician Explains Who Should Take Nuxated Iron Practical Advice on How To Help Build Up Great Strength, Energy and Endurance.

Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real cause of their trouble. Without iron in your blood your food merely passes through the body something like corn through an old mill with rollers so wide apart that the mill can't grind."

"For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable, and all run down," while at 40 or 50 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy."

But be sure the iron you take is organic iron—Nuxated Iron—and not metallic iron which people usually take. Organic iron—Nuxated Iron—is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is just as it comes from the action of strong acids on small pieces of iron filings and is therefore an entirely different thing from Nuxated Iron. Nuxated Iron represents organic iron in such a highly concentrated form that one dose is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen baked apples. It is like taking extracts of food instead of eating pounds of beef.

Over 4,000,000 people annually are using Nuxated Iron. It quickly helps make rich red blood, revitalizes worn-out nerves and gives increased strength and energy. Your money will be refunded by the manufacturer if it does not produce satisfactory results.

For sale by all druggists.

## Healthy Mother Merry Children Happy Home

TO maintain a happy home the housewife must keep in good health. Her duties are many and various, and it seems as if every other member of the family depended very much on her. "Where is my hat?" cries the boy. "What did you do with my coat?" asks the daughter. "I can't find any handkerchiefs," yells the husband. The housewife is usually the advisor and general manager of the family.

Lydia E. Pinkham's Vegetable Compound helps women to maintain a happy home by keeping them in good health.

Bloomington, Ill.—"I have taken six bottles of Lydia E. Pinkham's Vegetable Compound and it has done me a wonderful sight of good. I was never very strong and female trouble kept me weak so that I had no interest for my housework. I had such a back ache I could not cook a meal or clean up a room without raging with pain. I would rub my back with alcohol and it would ease for a few hours, but after I had taken three bottles of Vegetable Compound my aches began to gradually leave me. Now I am as strong and healthy as any woman and I give my thanks to Lydia E. Pinkham's Vegetable Compound for my health."—Mrs. J. A. McQuerry, 610 W. Walnut St., Bloomington, Ill.

Dante, So. Dakota.—"I would have pains and cramps every month until I could hardly stand it and could not do my work at all at that time and often had to go to bed. I went to a physician, but he did not do me much good and said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in the newspaper and thought I would give it a trial. Now I feel lots better and don't have to give up and go to bed, and can do all my work. You may use these facts as a testimonial, and I will answer with pleasure all letters I receive, and you may be sure I will praise your wonderful medicine."—Mrs. ARTHUR J. KADE, Box 71, Dante, South Dakota.

**Milady's Boudoir**  
Treatment of the Eyes.  
The first essence to eye beauty is health. In ill health the eye becomes dull and strained looking, showing deep hollows beneath them. Very often the eyelids become inflamed and, to correct these defects, the health must be improved. If the eyes are simply tired and burn from overexertion they should be bathed nightly with a lotion. The most soothing eye lotion is a four percent solution of boric acid. Use an eye cup when taking this treatment, opening and closing the eyelids in the water.

If your eyes have become much inflamed from exposure, overstrain or congestion, you will find that warm tea leaves will instantly remedy this condition. Apply the leaves in the form of a bandage, placing them in a piece of antiseptic gauze which may be rolled over neatly. Tie the bandage over the eyes and allow it to remain for some time. Bathing the eyes with cold tea is also very soothing.

A solution of salt water will strengthen the eyes and make them more brilliant. Dissolve an even teaspoon of salt in a half pint of tepid water and bathe the eyes, using an eye cup or a piece of absorbent cotton. When the inflammation of the eye is caused by weeping, apply hot water to the lids to draw out the redness. To do this properly the cloth should be wet when laid over the lids and be changed as the heat subsides. Two minutes of this will make the whole face red, and as the blood recedes, the lids will bleach with the rest of the skin. When bathing the face, be careful not to rub the eyes too roughly with the towel. This is often the cause of redness which is very unsightly. Take care of your eyes properly and they will be beautiful, the most precious feature a woman can have.

## Our Boys and Girls

Every young mother should be very careful to see that the baby is covered securely at night. If he is restless and kicks off the bed clothing she should fasten the spreads and blankets on each side to the mattress with safety pins. When the baby is lying on her lap, no one should be allowed to talk to him from over his head at the back, as this frequently causes squinting. A little milk added to the water in which babies and small children are bathed helps to keep the delicate skin free from roughness. When the baby is placed in its crib or bassinet after a meal it should be laid on its right side. Iron coats are considered more healthful than wooden ones. If the child has an inclination to bite his nails it should be stopped at once before the habit becomes too strong. If it cannot be stopped in any other way dip their fingers in some bitter substance such as bitter tincture of aloes. Anything that is harmless but bitter may be used. This will usually teach the child that the nails should not be bitten.

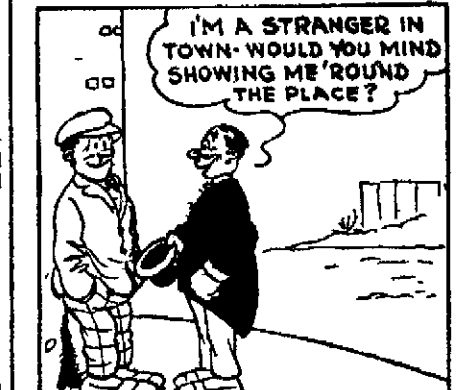

## Everyday Etiquette

"Will you please tell me the correct position for the ushers at a wedding?" asked May.  
 "They separate as they reach the altar, moving to the right and left. If there are only three they stand on one side and the bridesmaids on the other," said her sister.
